The Department of General Surgery and the Department of Anatomy, MGM Medical college, Kamothe; are organizing the 1st HPB Surgery Cadaveric Course on 16th and 17th of March 2024.

The course is aimed primarily at young surgeons who have finished their MS (General Surgery) OR are pursuing/completed MCh/DNB/fellowship courses in Surgical Oncology/GI and HPB surgery all over the country. It will also be useful for consultants in teaching and non-teaching hospitals who would like to increase their knowledge and skills in HPB surgery.

This 2-day course will be mentored by eminent faculty having expertise in Hepatopancreatobiliary surgery.

We will be using Theils embalmed cadavers for the workshop. The Thiel soft embalming technique is a sophisticated method of preservation of complete human cadavers that allows them to maintain many features of a live body, particularly with regards to the authenticity of colour, tissue consistency and flexibility.

OUR PATRONS

Mr Kamalkishor Kadam
Chancellor, MGMIHS
